They are not all seafarers, however, for many appear to signed for one trip only and have obtained employment here in the shorthanded factories at Inerative wages. This is particularly true of the American negrees, many of whom have come over as nucletons or other workers on

ships in the american trade. The West Africans speak English, of course, but not very finently. The American negoes being quite glib of tongle are more interesting to the Liverpool street crowds. The American blacks do not go to all the exremes of dress affected by the Africans, who in their new found wealth blownes, the rash and returns of and European surroundings have

5 Passenger 3400 r. p. m. Chalmers-\$1090 Detroit

That is the Real Secret of the 3400 r.p.m. **Chalmers Popularity**

Whenever you see the Chalmers trade mark you always see the phrase "Quality First." Whenever you think Chalmers you think "Quality." And if you have been reading my ads or have been in my salesroom, you are impressed with the fact that the 3400 r. p. m. is a Chalmers car of unusual quality.

I've often said that it is, in my opinion, the greatest car the Chalmers Company has built. And I have an excellent reason for saying this. It is a step ahead of any preceding Chalmers because it performs a shade better. The Quality in the new Chalmers is the kind of quality that tells on the road

and tells wonderfully. Now it is just this exceptional quality, just this shade of improvement that has brought Chalmers sales and production ahead in leaps these 12 months past. I don't think the men in charge of affairs at the Chalmers factory realized what they had in the 3400 r. p. m. Chalmers. At any rate they underestimated

the demand. They built more than they had ever produced in any previous season, 'tis true, but still not enough. The first making order was snapped up quickly. Then came a second lot. These went just as fast.

Now the factory is building the third lot and I understand that Chalmers has no intention of stopping even there. Quality it was that caused this unprecedented demand. Chalmers certainly have the right idea in building cars. "Quality First."
